To every thing there is a season,
and a time to every purpose under
the heaven: a time to be born, and
a time to die; a time to plant, and a
time to pluck up that which is plant-
ed; a time to kill, and a time to heal;
a time to break down, and a time to
build up; a time to weep, and a time
to laugh; a time to mourn, and a
time to dance; a time to cast away
stones, and a time to gather stones
together; a time to embrace, and a
time to refrain from embracing; a
time to get, and a time to lose; a
time to keep, and a time to cast
away; a time to rend, and a time to
sew; a time to keep silence, and a
time to speak; a time to love, and a
time to hate; a time of war, and a
time of peace.

Being stopped on downs at the Battle 15, a dropped pass in the end zone and a mishandled snap on a field goal try prevented the Devils from widening their margin. Gate City's only score came early. On their second play of the game, quarterback Chad Gose rolled right, almost slipped in the mud and threw to a wide open Joey Rusek. Rusek made a fine over the head grab and raced in for the game's only score. The 7-0 lead was all Gate City would need.

Quarterback Gose had a big night for the Devils. Demonstrating poise and an accurate throwing arm, Gose refused to let the rain soaked field slow his performance. Going 10 for 16 with one interception for 120 yards, Gose was the main weapon in the Devils arsenal Friday night. On the receiving end of most of Gose's passes was fellow junior Joey Rusek. Be-

the Challenge

From the atom to the sun ... the universe pulsates with energy in many forms.

The challenge is to find ways ... new ways ... to utilize the earth's vast storehouse of fuels in providing the energy needed for this nation to continue to be great.

The means — innovative technologies, exotic engineering, dynamic architecture — existing

advances that must come if man is to tap Nature's store for the energies he needs.

From the smallest part of the universe to the largest ... that's the scope of the energy field today. The opportunity for personal achievement is infinite, the challenge, one that must be met.

The sound mind asks questions and seeks answers.

The sound mind knows itself.

The sound mind is concerned with values.

The sound mind learns from others.

The sound mind is independent.

The sound mind is open and receptive.

The sound mind has "intelligent ignorance."

The sound mind likes hard work.

The sound mind makes wise choices.

The sound mind is confident and positive.

We hope we have helped you develop each of these qualities during this school year, but your work is not finished.

The sound mind is a growing mind. There are always more questions to be answered, more values to be examined, more challenges to be conquered.

1990-91 Annual Staff

Another School year will soon end and another yearbook completed with fond memories of friends, classes, and school events. I hope you enjoy this book now and in the future. Thank you students and staff for your help in the production of the *Gate City High School Blue Devil Yearbook*.

Sincerely,

Nancy K. Ward

Nancy K. Ward

When we started kindergarten, most of us were anxious to attend school. As time wore on, we grew tired of the difficult work, the getting up early, and the non-airconditioned atmosphere. By our senior year, we assumed we would be ready to graduate.

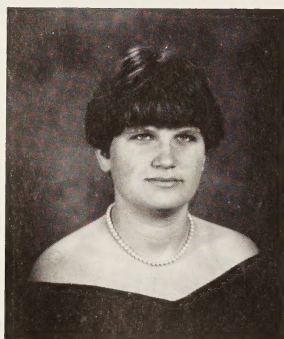

Well, for many of us that time has come, and it is not as easy leaving as we thought it would be. We, the senior class, will no longer be together. No more will we be able to stand together in the "Senior section" of the gym as a group to "fire up" the team for the big game. We will no longer see one another every weekday. We may not miss the work involved with school life but we will miss each other.

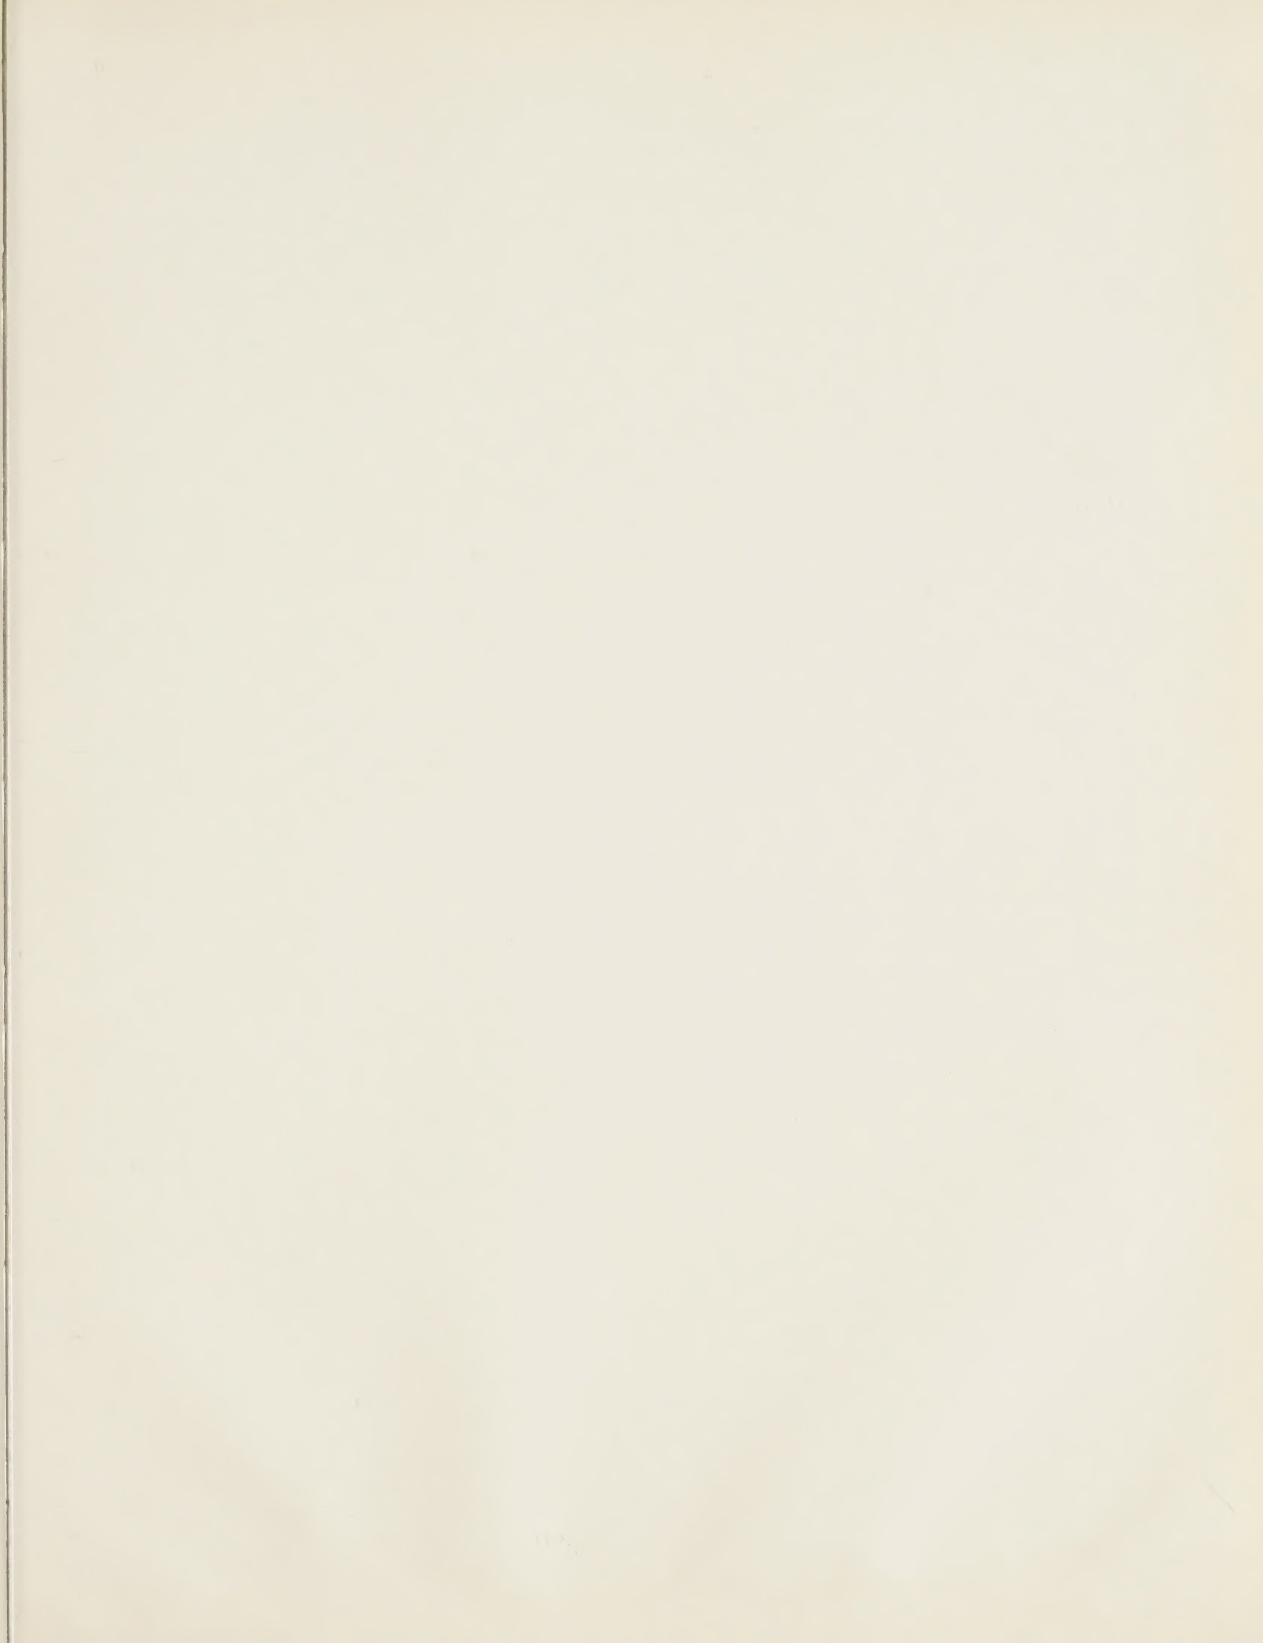

No matter where we go or what we become in life, we will always be the Gate City High School graduated class of 1991 . . . and we will always be *Simply the Best*.

Sincerely,

April N. Wininger
